With everything that is going on this past year we thought it would be great to get together as maths leads to share knowledge, swap ideas and discuss all things maths-related.

In these sessions, there will be opportunities to:

- Discuss a topical issue
- Update on NCETM latest resources
- Explore Maths Hub Support and Programmes

This network will be supported by an online community that you can [join here](#) today. Feel free to join the discussions, network with other local maths leads and look through the resources.

Once registered, you will receive a link to the sessions.
