

Fully funded

Multi-Academy Trust Maths Leads Community

A CPD community designed to support those
leading maths across multiple schools

What is involved?

This community supports those who lead maths across MATs to embed teaching for mastery at scale. Participants will deepen their understanding of effective pedagogy, leadership roles, and build capacity with colleagues to transform maths teaching and learning.

Alongside sessions, an active online community and access to national expertise enhance ongoing development.

Who can take part?

The community is for MAT maths leads overseeing multiple schools – both new and returning participants. MATs must support participants to attend three in-person days and take part in inter-sessional activity.

Benefits

- You will build leadership capacity to embed teaching for mastery across schools
- You will shape coherent curriculum and professional development strategies
- You will collaborate with peers and engage with national educational research
- You will develop a shared vision for effective teaching and learning in maths

The **community** is fully funded by the Maths Hubs Programme, so is **free** to participating schools.
